

## **Evolvd Cartridges are Always 100% Pure Cannabis**

The recent news of serious vaping-related illnesses around the country is extremely worrisome. As we wait for the numerous ongoing investigations to find a root cause for the issues, we want to reassure you that Evolvd cartridges only contain 100% pure cannabis oil. We never use vitamin E, PG, MCT or any other additives found in many other cartridges on the market. Our only ingredient is cannabis extracted exclusively in-house at our lab in Eugene. It's the main reason why we consistently deliver you the safest and cleanest cannabis oil on the market.

Our mission is always to bring you the best expression possible of this amazing plant. We don't take shortcuts, and we don't believe there are any outside ingredients we can add that would improve your experience. Evolvd always has been, and always will be, True to the Plant. No additives, No fillers. No hydrocarbons. Just cannabis, as it should be.

Thank you for your ongoing support, and if you have any questions about our product!
