Southern Oregon Cannabis Company Fights to End Alzheimer's Disease

Local herbal apothecary Breeze Botanicals and Herbal Manufacturer Sun God Medicinals Support the Walk to End Alzheimer's for their Fourth Consecutive Year

CENTRAL POINT, OR - Of the top ten causes of death in the United States, Alzheimer's Disease is the only one that cannot be prevented, cured, delayed, or slowed. There are 16 million Americans working as caregivers for 5 million men and women that suffer from this terrible disease. Every 65 seconds, someone in the US is diagnosed. The Walk to End Alzheimer's, organized every year by the Alzheimer's Association to raise awareness and funds for Alzheimer's support, care, and research, is held in more than 600 communities worldwide. For the fourth consecutive year, Sun Breeze, Inc., a Southern Oregon-based family of seed-to-sale herbal companies, including retail stores Breeze Botanicals, is joining the fight by participating in the Walk to End Alzheimer's and raising funds for the Alzheimer's Association.

Sun Breeze, Inc. will be raising funds for the Walk to End Alzheimer's through grassroots fundraising efforts, through the Breeze Botanicals herbal apothecaries and cannabis dispensaries in Ashland and Gold Hill, OR as well as donating 10% of capsule sales manufactured by Sun God Medicinals for the OLCC cannabis dispensary market. Since 2016, Sun Breeze, Inc. has raised \$5,500 for the Alzheimer's Association and more than 50 people have walked with their team. This year, Sun Breeze, Inc. has set a goal of raising at least \$4,500 for the event, significantly increasing donations raised in previous years.

Sun Breeze, Inc. chooses this cause each year due to the potentially powerful connection between the cannabis and hemp products produced and sold by the Sun Breeze family of companies. According to a study published in 2014 in the Journal of Alzheimer's Disease, phytocannabinoids such as delta-9 tetrahydrocannabinol may be powerful neuroprotectants that could be utilized in Alzheimer's treatments. "Many of the customers that we've served at Breeze Botanicals and Sun God Medicinals tell us how their lives have been affected by Alzheimer's, whether they're a patient, caretaker, family member or friend of someone living with the disease," said Brie Malarkey, Founder and CEO of Sun Breeze, Inc.

"Additionally, many of our own staff, family, and friends have been directly impacted by this disease," she continued. "It's important to us that we leverage the success that we've found serving our community to further benefit our species and our planet as a whole" Sun Breeze, Inc. asks that the community join them in raising money and awareness by donating to and joining the Walk to End Alzheimer's.

Sun Breeze, Inc. will be offering free t-shirts to anyone that joins their team, donates a minimum of \$25, and walks with the team during this year's event. Sun God Medicinals will be donating 10% of all capsule sales to the Walk to End Alzheimer's completed prior to the event in Medford, Oregon on

September 21st, 2019. Breeze Botanicals will assist in fundraising and recruiting efforts through community outreach, donations, and sales in their stores.

The Medford, OR Walk to End Alzheimer's will be held at the U.S. Cellular Community Park on September 21st, 2019; registration begins at 10:00AM. To register as a Sun Breeze, Inc. team member, or to donate in the team's name, go to: <http://act.alz.org/goto/sunbreezeinc>

All funds raised through Walk to End Alzheimer's further the care, support and research efforts of the Alzheimer's Association. The Alzheimer's Association is a nonprofit 501(c)3 organization. All donations are tax-deductible as allowed by law.

About Sun Breeze Inc.

Founded in 2011 by husband and wife team Brie Malarkey & Jon Cunningham, Sun Breeze Inc. is a seed-to-sale herbal company headquartered in Central Point, Oregon. The firm is comprised of five different herbal companies that cultivate, manufacture, and dispense medicinal herbs. Sun Breeze Inc. provides safe access to organically grown medicinal herbs and cannabis from Southern Oregon to consumers interested in health and wellness.

About Breeze Botanicals

Breeze Botanicals was founded in the Spring of 2014 in Gold Hill, Oregon with an original mission to provide a safe access point for medical patients in the Oregon Medical Marijuana Program (OMMP) and all consumers seeking quality herbs from Southern Oregon. After two years of serving patients it was apparent that all people needed safe access to medical cannabis. Many people were afraid to get a medical card or were simply self-medicating for non-debilitating conditions like loss of sleep, headaches, and arthritis. Therefore in the fall of 2016 Breeze Botanicals became the first state of Oregon retailers of cannabis for all adults - both patients and consumers side-by-side. Proud to be serving all Oregonians as they explore cannabis.

About Sun God Medicinals OLCC Division

Headquartered in Central Point, Oregon, Sun God Medicinals was founded in 2014 with a mission to process, blend & extract quality healing herbs from Southern Oregon—including herbal teas, tinctures, capsules, topicals, edibles, concentrates, and extracts. The processor produces both a hemp product line and a cannabis compounded line of products. In November of 2016 Sun God Medicinals received an Oregon state cannabis processors license to make and sell cannabis products to OLCC licensed retailers.
